AUTO-DOSED SOLUTION

Combination Oven Neutralising Solution

A jet spray solution for auto-dose usage through commercial combination ovens to neutralise cleaning residues in final rinse for clean and sparkling oven surfaces. Best used in conjunction with Oven Clean. Prevents water scaling, leaving oven clean and shiny.

DIRECTIONS

Set uptake tube through lids with enough tube length to reach the bottom of the container. Product will auto-dose to the machine. Can also be manually applied onto oven walls with a spray bottle. When manually applying, leave on surface for 2-3 minutes to neutralise any left over oven clean residue.

MPI APPROVAL

MPI APPROVED C31 (All animal product except dairy)

Before use, all edible product and packaging material must be removed from the room. After using this compound, food surfaces must be thoroughly rinsed with potable water before production starts.
