## Graffiti Remover

Powerful ready-to-use blend of biodegradable solvents effective against a wide range of popular graffiti preparations. Simple spray on, wipe off. Removing graffiti discourages reoffending.

### DIRECTIONS

Spray directly onto graffiti and allow 30 seconds to 3 minutes to work. Wipe and remove with a damp cloth or work with a small brush, adding more solution if required. Before repeating process, allow affected area to dry. Product is neutralised with water. Surfaces can be wiped or water blasted to remove any obvious residue.

For a better chance of 100% removal of the graffiti, use as soon as possible.

In some cases the product may affect base coatings. Always test on an inconspicuous area. Wipeout may de-laminate synthetic surfaces.

Note: Is classified as a surface treatment. This compound is only used for maintenance, potentially on a routine basis.

### MPI APPROVAL

MPI APPROVED C23 (All animal product except dairy)

This may be used in edible areas. Before use, all edible product must be removed from the room. No edible product is permitted in the room until all treated surfaces have been adequately protected with an approved coating. Where incidental contact with the food surface occurs, the surface must be thoroughly cleaned and washed to ensure that no residue remains.

**GRAFFITI** Removal and deterrent, kick and scuff marks, ingrained soiling on industrial PVC curtains

### PROPERTIES

**APPEARANCE** Clear Pale Yellow Liquid  
**FRAGRANCE** No Fragrance
